

Laboratorium Analizy Procesów Ucznienia.

Data wykonania ćwiczenia:

24.05.2024

Rok studiów:

1

Semestr:

1

Grupa studencka:

1b

Grupa laboratoryjna:

-

Ćwiczenie nr

6

Temat: Problemy NLP w uczeniu maszynowym.

Osoby wykonujące ćwiczenia:

1. Gracjan Wackermann

Katedra Informatyki i Automatyki

1. Cel ćwiczenia:

Celem są 1. Wstępna analiza tekstów z pomocą list częstotliwości, chmur słów, n-gramów. 2. Konstruowanie n-gramów i grafów.

2. Zadanie do wykonania:

Zadanie dotyczy analizy tekstu, w tym list częstotliwości słów, budowanie chmury słów, kojarzeń i innych.

3. <https://en.wikipedia.org/wiki/Poetry>

- *Wariant nr. 3* -
